Health: It Touches All of Us

Mothers. Fathers. Sons. Daughters. Spouses. Friends. Colleagues. Everyone is touched personally and directly by either their own health issues or those of their loved ones.

Healthpartners is a group of sixteen of Canada's most trusted health charities, and we offer employees and retirees the opportunity to invest in direct services; public education; health promotion; and research through our unique partnership.

My Grandfather

**Healthpartners:
Working for Your Health**

Healthpartners means direct services, available in communities across Canada. These are essential services, provided most often free of charge by our members, and are not provided elsewhere in our health care system.

Healthpartners means public education and health promotion, delivered at the national, provincial, and community level helping Canadians to stay up to date and connected to the information they need to help loved ones.

Healthpartners means research – the quest for treatments and cures conducted by our sixteen members across Canada, advancing scientific and medical knowledge and bringing us closer to solutions.

CHOOSE HEALTH

When you choose Healthpartners, you have a unique opportunity to make a difference. Healthpartners lets you invest in your health, the health of those you care about, and the health of all Canadians.
